PASSED AUDITS (20)                                                          Show

# 98

# Accessibility

These checks highlight opportunities to [improve the accessibility of your web app](about:blank). Automatic detection can only detect a subset of issues and does not guarantee the accessibility of your web app, so [manual testing](about:blank) is also encouraged.

## NAVIGATION

▲  Heading elements are not in a sequentially-descending order  ⌄

These are opportunities to improve keyboard navigation in your application.

ADDITIONAL ITEMS TO MANUALLY CHECK (10)                                     Show

These items address areas which an automated testing tool cannot cover. Learn more in our guide on [conducting an accessibility review](about:blank).

PASSED AUDITS (19)                                                          Show

NOT APPLICABLE (40)                                                         Show
